

Get Prior Year Tax Return Data from the IRS

You will need your 2020 prior year Adjusted Gross Income (AGI) to be able to e-file this year's return. If you do not have a copy of your prior year return, you can access a transcript for those returns from the IRS website. Your AGI will be in that transcript.

If you had earned income in 2019, regardless if you have such income in 2021, and with no upper age limit, *you may qualify for the Earned Income Credit (EIC)*. If you do not have a copy of your 2019 return, you can access a transcript for that return from the IRS website.

We recommend that you request the transcripts online because mail-in requests are still running late due to COVID-19. You will need to enter a separate application for each year requested.

To go to the IRS transcript request page click on: <https://www.irs.gov/individuals/get-transcript>
